Total grant: Not yet officially announced (17.11.22)

Balance brought forward from 2022/2023 £9140

Total available: £

To be added to, and updated throughout the year.

Resources / Equipment / Physical		
Description	Cost	Impact
Sports Directory general resources order	£309	After overhauling and adding new units to the yearly PE school sport curriculum, new resources were needed to ensure the teachers had the correct resources and equipment to teach the units required in Autumn term.
The PE hub	£1,197	A 3 year subscription for all staff to access the online resources. The PE hub offers a wide range of units, each with demonstration videos, progression maps, skill progressions, key vocab and is a full and varied resource to use to teach high quality PE. A three year subscription came at a discounted price.
Updated mile markings and PE markings	£2,567	As part of our commitment to the active mile initiative we are updating the mile track and freshening up the line markers. We have been running the active mile for around 6years now and it is something that each child takes part in every single day. We have timetabled slots for each year group to do this. We are marking over the top of the existing track, but also adding more of a road track design including zebra crossings, roundabouts, and traffic lights. It is hoped that this will also double as dual purpose at playtimes and lunchtimes when we have a wheeled offer to use for the children. The PE line markings are again, something essential for PE lessons to take place. The lines are being updated and refreshed.
		Running total £ 4, 073

Staff CPD				
Course	For who	Delivered by	Cost	Impact
Mini Medics	Year 1,2,3,4	Mini Medics	£700	The Mini Medics courses provide a good foundation for children to learn how to take care of their mental and physical health, as well as looking out for the people around them. We feel that this is a priceless opportunity for the children to access, and will spark many conversations around health and wellbeing. KS1 children accessed a 1hour or workshop, and the KS2 children took part in a 3hour workshop, covering all the basics of age appropriate first aid.
Cross curricular Orienteering	Whole school	Cross curricular orienteering	£1,950	<p>Cross-Curricular Orienteering will help unlock an active learning world where our children practise their skills in any subject area whilst on the move.</p> <p>We will have the course set up and mapped out with the different tags. Each tag will be multi use – including maths, literacy and topic based activities. Once mapped out, the staff will all receive training on how to best use the programme. The cross curricular orienteering resource will contribute to the 30 active daily minutes that the children should all receive.</p>
Handball	Year 3	Access coaching	£100	A series of lessons finishing with a half-day intra competition so the year group

				will have a physical competitive element to the end of the unit.
Tag rugby	Year 4	Access coaching	£300	A series of lessons finishing with a tournament v other schools. The year 4 tag rugby was a physical tournament, with other schools attending. The children were able to wear the AGFS strips and represent the school for the first time in over two years.
				Running Total £ 3, 050

Miscellaneous/Enrichment		
Description	Costs	Impact
Lunch time facilitation of play Autumn 1 and 2,	£280	We found that KS2 needed some structured play – we focused on sportsmanship and playing fairly, adhering to the rules. The coaches lead the sessions and brought in some leadership skills from the children.
Competition T shirts *Around £700, not yet bought. In the process of finalising details.	£700*	Our new AGFS Sport competition T-shirts will allow the children to feel proud to represent AGFS when out and about. The simple green design will make sure the children are uniformed when competing. A mixture of sizes and enough for every child in the year group to wear one.
		Running Total £ 280

**Total spend £ 7,403
